### HIGH QUALITY STAINLESS STEEL INOX - RADIAL HEAT EXCHANGER

Every wall hung boiler model has a stainless steel heat exchanger perfectly designed to deliver efficiency and most importantly reliability.

# VISSMANN

# Cosy up and save energy with Vitodens - Economical, efficient and compact

The Vitodens family is our best selling range of gas condensing boilers. Compact, energy efficient and economical with a reputation for exceptional quality and reliability, they are suitable to meet the requirements and demands of every home, no matter how large or small. Gas condensing boilers are the most popular choice for heating and hot water in Irish homes, producing heating and hot water cleanly and efficiently using energy from natural gas.

The Vitodens family combines the benefits of gas with the latest in innovative technology to bring you a range of boilers that promise to deliver comfort and convenience today, tomorrow and beyond. As well as superior performance and reliability, Vitodens gas boilers stand out for their user friendly design and ease of use. All of our boilers have been designed with smart technology in mind, helping you save money and control your comfort from wherever you happen to be.

## VITODENS 100-W

Our best selling gas condensing boiler. Efficient, compact, quiet and affordable, the Vitodens 100-W gas condensing boiler is the most popular solution for smaller and well insulated homes. Featuring innovative technology and services combined with reliability and longevity and comes ready for smart technology, helping you to optimise your heating and save on energy costs.

Compact design and low weight
